

|                |            |
|----------------|------------|
| <b>Symbol:</b> | PCB.TYP.07 |
|----------------|------------|

|                       |                                          |
|-----------------------|------------------------------------------|
| <b>Produktgruppe:</b> | Taschen und Halbtaschen für Radio und CB |
|-----------------------|------------------------------------------|

## Produktparameter

|                               |                            |
|-------------------------------|----------------------------|
| <b>Car-Audio Zubehör-Typ:</b> | Einbaurahmen für CB-Radios |
|-------------------------------|----------------------------|

|                            |          |
|----------------------------|----------|
| <b>Montageabmessungen:</b> | 140x41mm |
|----------------------------|----------|

|                                  |                                             |
|----------------------------------|---------------------------------------------|
| <b>Passend für - Radiomärke:</b> | Albrecht, AUDIOTEC, Lafayette, Omega, Yosan |
|----------------------------------|---------------------------------------------|

|                                   |                                                                                                                                                |
|-----------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Passend für - Radiomodell:</b> | Albrecht AE-6690, AUDIOTEC Areo, Lafayette Ares, Lafayette Ermes, Lafayette Zeus, Yosan JC850, Yosan JC2204/2205, Yosan PRO-110, Yosan PRO-120 |
|-----------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------|

|                                 |                       |
|---------------------------------|-----------------------|
| <b>Car-Audio-Eigenschaften:</b> | mit zentraler Öffnung |
|---------------------------------|-----------------------|

## Zusätzliche Informationen

|                       |         |
|-----------------------|---------|
| <b>Bruttogewicht:</b> | 0,17 kg |
|-----------------------|---------|
