## Parametri produs

|                         |      |
|-------------------------|------|
| <b>Type of antenna:</b> | auto |
|-------------------------|------|

|                                   |      |
|-----------------------------------|------|
| <b>Plus energetic<br/>antena:</b> | 8dBi |
|-----------------------------------|------|

|                            |     |
|----------------------------|-----|
| <b>Interval frecvență:</b> | DAB |
|----------------------------|-----|

|                   |       |
|-------------------|-------|
| <b>Conexiune:</b> | SMB-A |
|-------------------|-------|

|                   |     |
|-------------------|-----|
| <b>Impedanță:</b> | 50Ω |
|-------------------|-----|

|                 |        |
|-----------------|--------|
| <b>Culoare:</b> | neagră |
|-----------------|--------|

|                             |               |
|-----------------------------|---------------|
| <b>Tensiune alimentare:</b> | 5V DC, 12V DC |
|-----------------------------|---------------|

|                                  |            |
|----------------------------------|------------|
| <b>Temperatura de<br/>lucru:</b> | -40...85°C |
|----------------------------------|------------|

|                   |              |
|-------------------|--------------|
| <b>Frecvență:</b> | 174...240MHz |
|-------------------|--------------|

**Subtip cablu:**

RG174

## Informații suplimentare

**Greutate brută:**

0,086 kg
